

We Build This House

Words and music by Laura Hall ©2004

CHORUS

We build this house, on a firm foundation
We build this house, on the solid rock
We build this house, with Jesus as the cornerstone
We build this house, on the word of God

We can't build on shifting sand
We gotta stick to God's own plan
We keep on building this house anew
With everything we say, and everything we do

CHORUS

All are welcome in these walls
God accepts and loves us all
We do this work because we plan to stay
Building God's kingdom, every single day

CHORUS
